

ESUCB 2015

6th European Symposium on Ultrasonic Characterization of Bone

June 10-12, 2015, Ionian University, Corfu, Greece

International Committee

- Emmanuel Bossy (France)
- Dimitrios I. Fotiadis (Greece)
- Jonathan J. Kaufmann (USA)
- Pascal Laugier (France)
- Konstantinos Malizos (Greece)
- Mami Matsukawa (Japan)
- Michal Pakula (Poland)
- Demosthenes Polyzos (Greece)
- Kay Raum (Germany)
- Guillermo Rus (Spain)
- Dean Ta (China)
- Keith A. Wear (USA)

Local Organizing Committee

- Dimitrios I. Fotiadis
- Leonidas Gergidis
- Theodoros Gortsas
- Konstantinos Grivas
- Maria Pikou
- Demosthenes Polyzos
- Vassiliki Potsika
- Vasilios Protopappas
- Ioannis Spiridon
- Maria Vavva

The 6th European Symposium on Ultrasonic Characterization of Bone (ESUCB 2015) will be organized at the Ionian University of Corfu in Greece. The Symposium is a continuation of five previous meetings, initially organized by the French-German network on **ultrasound assessment of bone strength from the tissue to the organ level**. The European dimension of this symposium is extended for researchers, students and exhibitors from Asia and America.

The ESUCB 2015 will provide a unique opportunity to participants to gain knowledge in the latest development in the field of ultrasonic assessment of bones.

Papers covering a broad spectrum of themes are invited but not limited to the following topics:

Scientific Topics

- Propagation models
- Nonlinear acoustics
- Backscattering
- Numerical simulations
- Guided waves
- Novel instrumentation
- Signal analysis
- Acoustic microscopy
- Ultrasonic tissue stimulation
- Small animal models
- Applications

Important Dates

Paper submission deadline: 31 March
Notification of acceptance: 24 April
Early registration: 20 May
Late registration: 30 May
Final program available: 15 May
